

Clean Fleet Policy and DFW Clean Cities Update

**Rocky Mountain Fleet Management
Association
February 21, 2014**

**Lori Clark
Principal Air Quality Planner**

**North Central Texas
Council of Governments**

Existing Clean Fleet Vehicle Policy

Seeks to Reduce Nitrogen Oxides (NO_x) Emissions

– Regional Transportation Council adopted in October 2005

– Elements

– Acquisition

– Operations

– Maintenance

– Compliance Verification

Revising the Clean Fleet Vehicle Policy

Why Revise?

- Remain Relevant and Effective
- Reflect Impact of Technological Advances and Recent Regulations
- Capture Comprehensive Air Quality Goals
- Capture Comprehensive DFW Clean Cities Goals
- Engage Private Sector Fleets
- Utilize Opportunity of Moving North Texas Forward Grant

Revising the Clean Fleet Vehicle Policy

Key Concepts

- Focus on “Goal Statements”
- Draft “Implementation Guidance” to Provide Tips/Best Practices
- Integrate Policy Reporting with DFW Clean Cities Annual Survey
- Highlight Implementation Efforts through DFW Clean Cities Recognition Program
- Maintain RTC Policy to Limit Funding Eligibility to Adopting Entities

Proposed Clean Fleet Policy Structure

Current	Proposed
Acquisitions	Reduce Emissions from Fleet Activities
Operations	Reduce Overall Fuel Consumption, Particularly Use of Conventional Petroleum Fuels
Maintenance	Partner with NCTCOG and DFW Clean Cities
Compliance Verification	Ensure Drivers and Fleet Personnel are Educated about Fleet Air Quality and Petroleum Reduction Goals
